

Tracks

Quince Orchard High School, Gaithersburg, Md.

Theme: Wired

Every division spread in this book boasts crisp design and eye-catching photography. Notably, the high-quality, close-up shots of students exhibit a professional air. The typography on the facing page is just as strong. Placing your title word front and center captures the attention, and the limited use of two colors (white and red) on a solid black background completes the composition. Keeping the design of division pages exactly the same gives your book visual flow and harmony.
