

FIRST 30 DAYS INDESIGN

FIRST 30 DAYS INDESIGN

With the start of the school year, it's time to kick off your yearbook training. Use this document as a guide for teaching the first 30 days of yearbook.

Walsworth's *Yearbook Suite* curriculum provides short lessons that dive into yearbook activities to get students thinking and creating, and the *Using InDesign* manual PDF you received on your Resource DVD helps students become familiar with the software. While specific lessons and activities from the *Yearbook Suite* and *Using InDesign* are listed here, use your judgment to select components to begin training your staff in 30 days.

Remember to continue using the additional lessons in the *Using InDesign* manual and the Yearbook Suite units mentioned here, plus the units called *Make Copy Shine by Editing and Yearbooks*, *the Law and You*.
